

WADE TRIM

July 17, 2013

Joe Walker, PE
Automated Systems Engineering LLC
9423 Montgomery Road
Cincinnati, OH 45242

Subject: Letter of Recommendation

To Whom It May Concern:

Wade Trim is pleased to provide this letter of recommendation for Automated Systems Engineering (ASE). Wade Trim has included ASE as a key team member for several projects at the Metropolitan Sewer District of Greater Cincinnati (MSDGC) since 2010, including:

- Mill Creek WWTP Raw Sewage Pump Station Improvements Project
- Taylor Creek WWTP Reliability & Services Upgrades Study
- Upper Duck All Bundle Project
- Enhanced High Rate Treatment (EHRT) Design Guidelines

ASE provided detailed Electrical, Instrumentation & Controls (I&C) Engineering, SCADA Systems Integration, and Construction Administration Services for the Mill Creek Raw Sewage Pump Station Improvements Project. ASE's attention to detail during the detailed design phase and knowledge of MSDGC's SCADA Standards were especially valuable during the design and systems integration phases of the project.

ASE has provided professional services on every project to date, on-time, and on-budget, while meeting our expectations. Wade Trim would recommend ASE for any project involving Electrical and I&C Design or Systems Integration Services.

Please contact me at (313) 407-4028 if you have any question regarding this letter of recommendation.

Best Regards,
Wade Trim
